We trust that the recent discussions by the Committee will bear fruit. The new proposals are very generous and we hope that the parish will respond. In the past Subscribers have had rather small advantage from their annual subscriptions, and the consequence has been that there have been very few subscribers. Mrs. Lys felt this very strongly and the Committee agreed with her. The new Rule is that the small annual subscription will give the right to the Nurse's services in cases of ordinary non-infectious illness or accident without further payment. A trained nurse when you want her for 2/- a year,—that is a liberal offer!

The matter is serious from another point of view. After April 1st any one who attends a confinement, except a certificated nurse or doctor, will be liable to imprisonment or heavy fine. In future then the old-fashioned monthly nurse dare not undertake to help to bring babies into the world.

Therefore it will be a very serious thing for the parish if the nurse has to leave. There is no difficulty about keeping her if only enough people will join the Association, and the subscription for working folk is only 2d. or 3d. a month.

DORSET NEEDLEWORK GUILD.

A report from the above Guild have been sent to us, and we are glad to see that the number of garments contributed increases year by year, for this the additional contribution from our parish is partly responsible. The object of the Guild is to provide clothing for a certain number of poor people, to help to fit out girls for service, when their parents cannot afford to buy them suitable clothing, and also to give through parish nurses some of the things needed for newly-born babies. A garment society of this kind exists in many parts of England, and is a charity of the greatest usefulness. We noticed in a newspaper not long ago, that the Queen and some of the Princesses had sent garments of their own making to a Norfolk Association. We hope that next year will find the number of workers still further increased, both in our parish and outside it. Mrs. Lane is president of the Wareham Branch of the Guild, and she is very anxious that her branch should figure well in the Annual Reports. The Wimborne dis-
trict has sent in by far the largest number of garments for the last three years, and Mrs. Lane hopes that her branch will soon prove equally energetic. This is a way in which those who can use their needles, but who are not well off, can help the very poor. Will not each worker try and get a new worker for next year?
