

July 1954

PROBLEM which concerns all our country parishes at the present time is the repair and preservation of our Parish Churches. Fortunately we are helped considerably by the number of visitors who contribute to our Visitors' Box. This however does not apply to S. Nicholas where a considerable sum is required to repair the Tower which is in a bad condition. A sum of about £400 is needed and we hope that generous support will be forthcoming when an appeal is made for this purpose.

Winterbourne Kingston is, after all, part of the Parish of Bere Regis but has always been self supporting and we feel sure that the necessary funds for the repair of the tower will be forthcoming.

THE Parish Church Children's Service will be discontinued during August as is our custom but we shall be glad to welcome any children when we start again if they are not already members of any Sunday School.

NEXT month we hope to give the date of our Harvest Thanksgiving Service in both churches.
